

RUGGEDIZED FIELD CONNECTORS

Panel Mounted Sealed Connector

The Connector is recommended for Panel mounted sealed terminations on field equipment. This is a Pattern 3 terminal and has a 4mm socket at its top side, a large clamping gap with special pyramid shaped teeth for piercing the wire insulation, which obviates the need for wire stripping and may accommodate till 40SWG conductor without damaging it. It also include a solder post for internal connection.

Specifications

Material

Head : Phenolic resin
Stem : Brass, Nickle Plated
Solder Post : Tin dipped
Nut/Washer : Stainless Steel

Color knob : Black

Weight : 16.5 gm

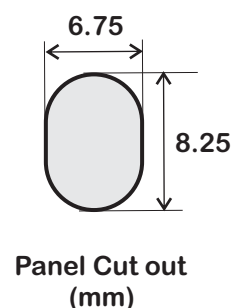

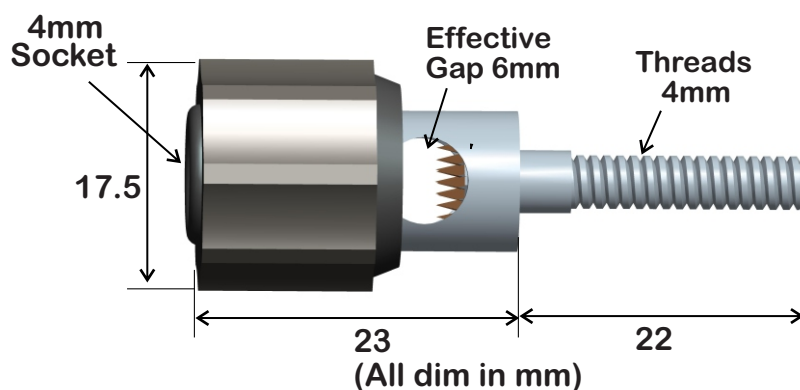

Wire Size : 4mm

Current Rating : 10A

Opt. Temp. : -25°C to +65°C

Water Proof : IP-67

Part Number : ECI-11/105B-CN
